Quality LED Products Since 1981

## Professional Service

Indoor and outdoor systems for commercial, industrial, standard and custom applications. Optimize your display value by providing us with your specific requirements. Custom layouts and user programming packages will maximize your system utility.

**Nu-Media** offers a variety of user interface options with manual and automatic file transfer and updating capabilities. The modular design of **Nu-Media** displays allows for virtually any configuration or size.

A unique, slim, front serviceable cabinet is standard on all larger models, optional on smaller displays. Modular design provides for easy maintenance.

**RGB**

Community Centres, Airports, Banks, Theatres, Manufacturing Plants, Parking Facilities, Schools, Churches, Television Studios, Theme Parks, Bars/Restaurants, etc.
